Industries Served

- Oxbow Calcining International
- Exxon (through KCS)

The Baton Rouge Southern Railroad (BRS) began operations in November 28, 2008. In addition to the facilities the BRS directly serves, a lot of work of the BRS is to store and switch cars for KCS to deliver to customer locations. The local industries include plastic, chemicals, bauxite, plastic pellets, raw coke and calcined coke. Watco owns the BRS along with 25 other railroads in 21 states.
