The East Camden and Highland Railroad (EACH) consists of two locations: one in Minden, LA and the other in East Camden, AR. Both facilities operate on twenty-thousand acre industrial complexes and provide switching and rail car storage services to over forty separate companies. The Louisiana site operates on Camp Minden, a secure Louisiana National Guard Facility and the East Camden location operates within the Highland Industrial Park (HIP) owned by the parent company. The EACH Railroad has provided safe, dependable and cost-effective railcar storage and switching for over 40 years and continues to partner with customers to accommodate their specific needs whether it's one or one thousand rail cars.
