The Fort Smith Railroad Company operates from Fort Smith, AR to Fort Chaffee, AR. The line was constructed in the 1890's and became part of the Missouri Pacific Railroad before 1900. The Union Pacific later acquired the Missouri Pacific in 1980, but the merger was not approved until 1982. Then in 1991, the Union Pacific leased the line to the Fort Smith Railroad. The Fort Smith Railroad is a wholly-owned subsidiary of Pioneer Railcorp.
