Track Capacity: 263K

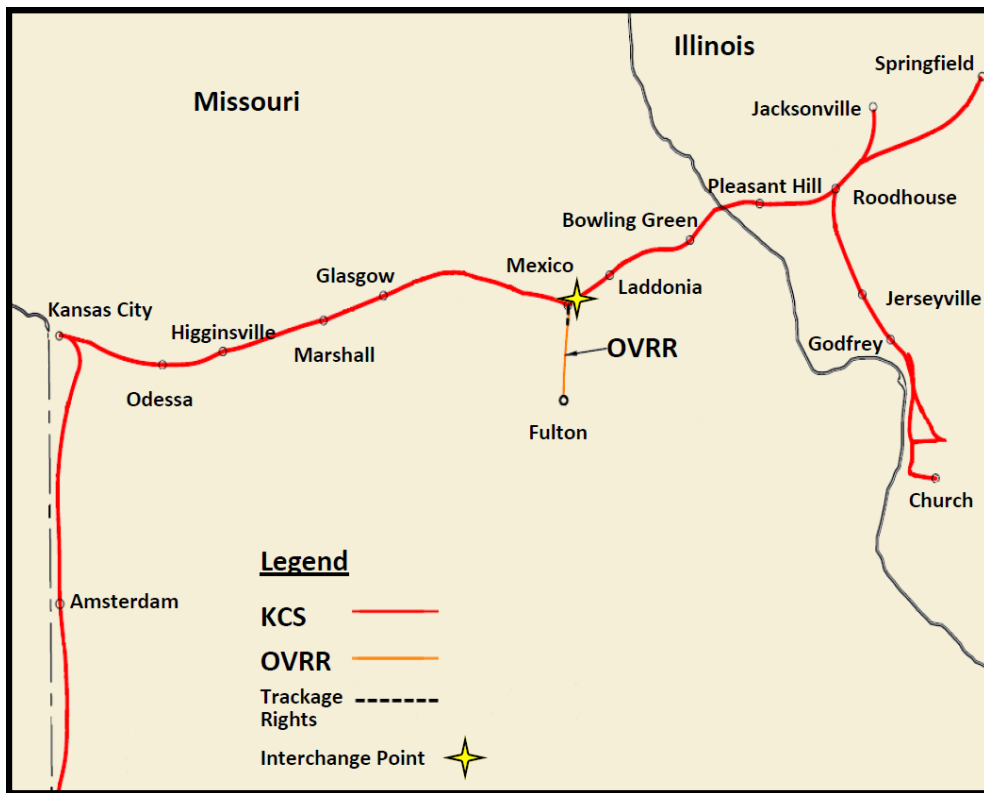

Services Offered

Car Storage Available

Industries Served

- Cerro Flow Products Inc
- CTS

OVR operates on 27 miles of track between Mexico, MO and Fulton, MO. The OVR took ownership of this line from KCS in 2007. Mike Williams, President and owner of the OVR, has plans to restore the tracks and bridges in the Fulton area. Potential companies that would use the line from Fulton to Mexico, MO would include Central Missouri Energy's future biodiesel plant in Fulton, Mertens Construction Company, Chiles Works, Fred Atkinson Farm Services, MFA Agribusiness and A.P. Green Industries.
